Mokibelo Investment Holdings
2017 February - 2017 September
Maintenance
Desktop and network support. Troubleshooting of issues encountered by employees relating to software, hardware and networking. Set-up of new computers and Installation of required software. Creation and management of user accounts. Maintenance of security within the network and on devices.

Projects

E4 Connect Mobile Application

A communication platform between an agent and a client managing scattered information in the CRM at E4, not being able to track the complaints, remarks or sentiments of the clients. A query managing system is implemented to allow the clients in a banking space to log their complaints and track the lifecycle of their complaints. Xamarin.forms, C#, Firebase and Microsoft SQL server technology was used.

r2se Web Application

Python and Django.Pronounced as "A re thuse", "let us help" translate to English, a platform for a job seeker and a potential recruiter to absorb the job seeker and give them employment to enhance their skills as interns, learnership, or even permanent jobs by the use of resume, certificate(s) and 2 minutes video of stating who they are and what they do using Python and Django.

Question Paper Generator Web application

A web-based application that assists lectures in compiling a question paper instantly so, with correct question paper format, questions and templates using PHP, Bootstrap, HTML, MySQL and Xampp technologies.

ICEP Web Application

A web-based application for ICEP community engagement program to accept applications for internships via their website rather than using email inbox, a centralised system managing all the applicants' application forms and also admin giving feedback to the applicants within the system. Angular, Express and NodeJs technologies were used.

Technical Skills

C++

SQL & PL/SQL

M.E.A.N stack

Java/SpringBoot

C#

ASP.Net

Xamarin.forms

HTML & CSS

PHP

NodeJS

MySQL

Python and Django

Additional Information

I am familiar with various tools for development such as:

Git/GitHub, Trello, Postman, Slack etc.

Numerous IDE's such as:

Visual studio code, IntelliJ, Netbeans, Eclipse and Visual Studio

Soft Skills

Management, Motivational & Strategic Planning
Analytical & Problem Solving
Time Management
Adaptability, interpersonal & communication
